### Overview

#### Features:

This film just like the natural diamond and can show irregular rhombus pattern. This film used in the photos, large format pictures, and the surface of the books to play a role in protection.

This film, as there is a large number of irregular rhombus diamond on the same surface, so the film will be thicker. After laminating, it will be of particular stand, solid than the normal film. We can see the clear diamond texture from `any` directions, more over, if touch, we can have strong feeling of three-dimensional diamond.
