### Overview

#### Features:

This film is transparent but matte, it also have the frosted feeling. This film used in the photos, large format pictures, and the surface of the books to play a role in protection.

After laminating, we can see the picture with the frosted shape by eyes. it often has the saw tooth and unclear picture in printing, when the resolution is not so high. So we can choose this film to laminate this kind picture. After laminating, the original picture's saw tooth can be less even disappears, and then the picture will be clearer.
