Overview

Descriptions:

The SIC-SZ-SLJ-A3-3E is an A3 size flatbed printer with high printing speed and high resolution. The structure design guarantees a stability of the performance allowing limitless repetitive prints with a complete registration. It comes with Epson printheads with a high quality definition.

For consumables materials, it uses the newest professional inks that specialized on flatbed printers. Therefore has a super adherence and durability on the color. With a high performance, the flatbed printer can help minor enterprises to realize high qualified printing results and create more value.

Features:

- Easy and simple to operate, there is no need for plate making and repeating color registration process, it is simple to operate and easy to maintain.
- Print on a flat or slight curved surface with a maximum concave discrepancy of 7mm to obtain a perfect printing effect.
- Higher printing speed and high definition with a printing size of A4, it only takes 2 minutes at 1440dpi to get the impression and 5 minutes at 2880dpi for the impression to be finished.
- Professional software output: the best printing effect with 100% color rendition.
- Actuating device is a combination of the step motor and synchronous belt which will guarantee a precise printing resolution.
- Printhead protector with an automatic function to adjust the height and also protect the printheads.
- Alloyed working table is lighter and stable and provides more resolution.
