## Overview

### Description:

This steel film is a flexible and printable magnetic receptive material. It's not magnet but can be easily placed on magnetic boards. This easy-to-change and long term durable film has good holding power and stability, making it perfect for indoor and outdoor POP when you use magnetic boards together.

If you use the steel film and the flexible magnet together to make up a Rapid Display POP System, it will give you an innovative, standard, unified and simple POP way.

### Application:

- . Easy-to-install, Easy-to-change, removable, reusable, uses for general signage and other flat-surface/ curved-surface, medium-term, indoor or outdoor applications such as:
- . Point of purchase display/Commercial Signage in Super Market, Retail/Grocery Shops, and Restaurant...
- . Removable/Changeable advertisements in subway, railway station, Business Center
- . Business wall outside
- . Map Guide in exhibition center, road side
- . Kids Wall in House

Details

Characteristics	with steel powder in material
Mainly used for	common display printing
Code	MC-FF-UV-T290
Surface	PET
Finish	Semi-gloss (waterproof)
Substrate	Steel
GSM	290g/sq.m
Thickness	0.006"(0.15mm)
Available Length	393.7"/787.4"/1181.1"(10000mm/20000mm/30000mm)
Available Width	45.7"/49.6"(1160mm/1260mm)
Shelf Life	2 Year
Printing Method	Screen Printing,UV Printing
Temperature range after	4? to 158?(-20°C to +70°C)
