

## Portable Oxygen Hydrogen Water Welder Flame Polisher Polishing Machine 90L, Double gun

Item Code: APM-H100B

Mini Order: 1 set

Shipping Weight: ★★☆☆☆

Average Rating: 24.2lb (11kg)

[Inquire Now](#)

### Overview

Synthetic glass (acrylic) polishing, Oxy - hydrogen generator is a machine using high temperature flame to make acrylic edge smooth and bright.

**Compact size, light weight, energy saving, easy to operate, safer and more reliable**

Its maximum output gas is up to 90 l / h.

? H100 is economical type Acrylic flame polishing machine.

? Light weight, Energy saving

? Environmental friendly, safe and reliable

? Its electrolyze adopts series and parallel compound technique, which makes the electrolysis more efficient.

? APM-H100 is environmental friendly, safe and reliable with low energy consumption.

**The flame acrylic polishing machine's construction**

#### Flame gun construction

1.Adjusting valve; 2. Connector; 3. Flame nozzle; 4. Bend flame nozzle (option);

5. Flame gun bar; 6. Air inlet port; 7. Pin type flame nozzle (option).

## Specifications

Model	APM-H100B
Input Voltage	AC110 - 220V
Rated Output Gas	95L / H
Operation Gas Pressure	0.08-0.13Mpa
Ambient Temperature	-10°C ~ 40°C
Flame Temperature	2800°C
Water Consumption (L / H)	0.05 L / H
Flame Gun No.	Single
Machine Dimension	480mm x 280mm x 360mm
Machine Weight	11kg
