Overview

- . Adopting Leister hot air gun.
- . Reasonable machinery structure.
- . Affordable with reasonable price.
- . Running steadily and joint material firmly.

Hot air flex banner welder whose voltage is 220V is a portable and smart welding tool for insite usage. It's widely used for flex banner, tent, pool liner can provide stable output, as the most important element, hot air gun is Leister. The welder adopting Leister hot air gun is controlled by auto-cooling system and adjusted continuously. It's smart and easy to joint flex banner, tent, etc with any format steadily and durably. Reasonable machinery structure make the machine running steadily and joint materials firmly and looks flat and elaborate.

Packing Details:

Packing size: 19.7"*11.8"*13.8" (50*30*35cm)

Gross weight: 28.7lb (13kg)

Specifications

Specifications:

model	CS-HWM-6001C
Voltage	230V
Frequency	50HZ/60HZ

Power	2100W
Working temperature	80°C -530°C
Air flow	(20°C) 200-270L/min
Driving speed	39.4"-295.3" (1.0-7.5m)/min
Dimension	17.5"x10.9"x11.0" (44.5x27.6x28cm)
Net weight	24.3lb (11kg)
