### Overview

- .High pressure style, easy to operate and better transferring effect.
- .Japan machine style, with delicate outer appearance.
- .8 heating pipes, with even heating.
- .The heating panel employs the special precision spool technology, which can effectively ensure the evenness and stability of temperature.
- .Temperature controller with digital display (tolerance:  $\pm 2^{\circ}\text{C}$ ), electronic time controller and information display panel ensure the operational convenience.
- .Surface of heating panel is coated with Ti-F anti-cohesion layer, featuring high strength, smooth texture, good hot-stamping effect and easy cleaning.
- .Spiral pressure design allows random adjustment for working pressure.
- .Bottom surface equipped with temperature-resistant silica gel plate can help deliver perfect transfer-print products.
- .Designed as per ergonomics, it features being easy for operation, uniform pressure, adjustment by linking pressure, small adjustment torque and large adjustment range.

#### Description:

High-pressure heat press uses special ultra fine line-tube technology with higher pressure to make good effect of transferring T-shirts, pants, cloth, etc. This heat transfer machine is Japan style which adopts 8 pipes to heat evenly.

**Notice:** Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.

#### Guarantee & Aftersales Service

Comprehensive guarantee for one year except the wearing parts.  
24-hour technical support by email or calling.  
User-friendly English manual for machinery using.

## Details

Working Table	Double Working Tables
