### Overview

#### Description:

The mug heat transfer machine is portable and smart. It can be used at malls, flea markets, shows, and similar locations. It is available for both cone and round-shaped mugs. Any beautiful images of your choice can be transferred to the ceramic and metal cups with this machine. The cup mold is adjustable according to the sizes of cups.

#### Features:

- Unique cone coaster, cone mugs are also available..
- Bigger digital display dashboard for a better observation.
- Easy pressure adjustment and nice exterior appearance.
- The digital control makes it easy to operate.
- Two tablemats make it convenient to change and use cone and round-shaped mugs.

**Notice:** The machine can be purchased in a variety of colors, depending on availability. Color can be custom ordered, although a waiting period and an additional charge should be taken into consideration. This applies only to bulk orders.

#### Warranty and after-sale service

One year warranty; spare parts do not apply.

24-hour technical support via email or telephone.

User-friendly English manual, which explains how to operate the machine and the required maintenance.
