Overview

The new alternative to glue, to avoid the inconvenience of transportation and application of glue, we are now launching a high-strength double-sided tape to meet the further requirements of customers.

Description:

- Tensile strength is up to 28n/1" (25mm)
- Heat resistance is up to 120 degrees
- Anti-plasticizer, anti-UV
- Multi-purpose double-sided tape: compatible with different fabrics, and hard but smooth surfaces.
- Easy to use, convenient, and environmentally-friendly.

Application:

It is mainly suitable for PVC banner, textile flag, roll up, PET film, glass, stainless and, acrylic sheets, etc.

Attention:

- Before using, please make sure the surface is clean: remove dust, oil, or water.
- Make sure the tape and the bonded parts are connected firmly.
- Choose the suitable width of the tape according to surface.
- Store in a dry environment.

Warning:

Keep out of the reach of children.

Instructions:

- We suggest images to be joined lengthwise.
- After joining the pictures with the double-sided tape, one buttonhole shall be made at each end of the joined of images. For larger images, one buttonhole shall be made every meter to ensure the secure adhesion.
- Size: 0.4"*1968.5" (1cm*50m)/roll or 0.8"*1968.5" (2cm*50m)/roll. Other widths are available according to customer requirements.
- Compared with the traditional glue, this product is cleaner, stronger, more convenient, and environmentally friendly. The adhered images are smoother and more artistic.
- This product can be used for other advertising purposes, like adhering canvas to sheet materials, or signage installation.
