### Overview

#### Features:

The picture stands, which are designed by Swedish designers, have the heights of 2 nodes (zinc alloy materials) or 3 nodes(aluminum materials). It is characterized by its easy installation as well as tall, straight and flat effects.

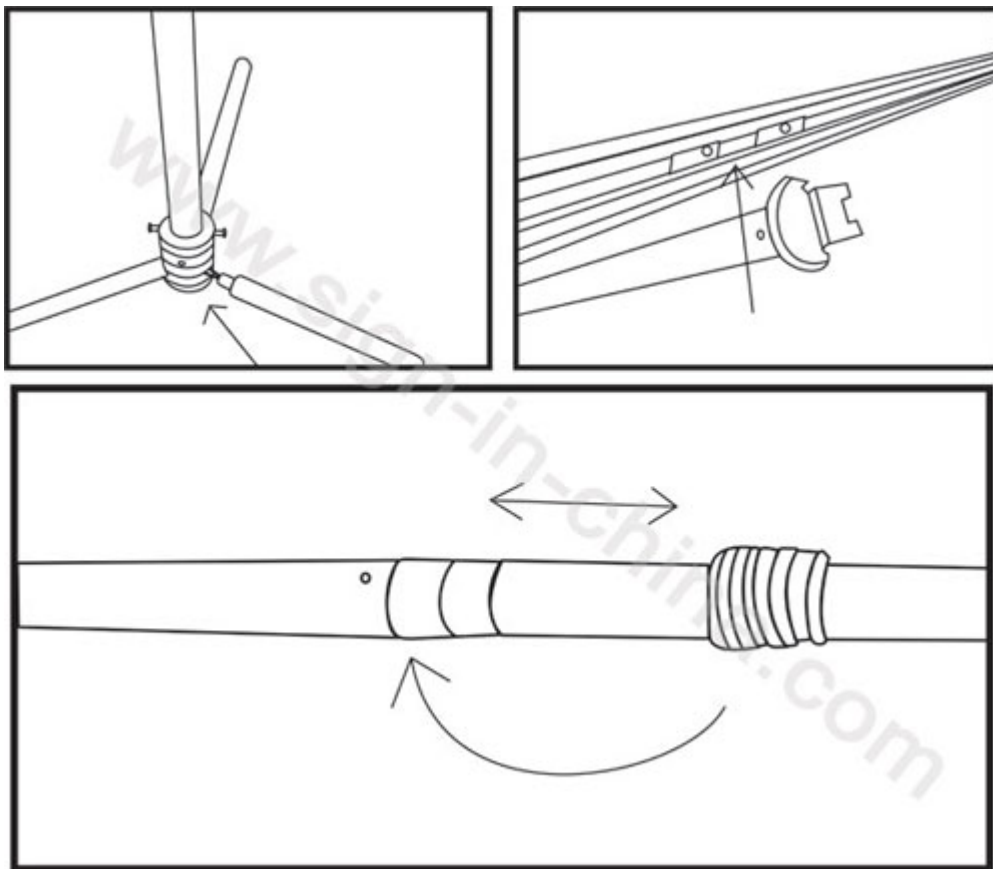

#### Installation:

- Plug the triple feet and the vertical pole into the linking module to build up the supporting frame.
- Press the upper black plastic into the slot on the center of the top bar.
- Fix the ring and wind the screws to adjust the position on the pole.
- Handle the graphic with the top and bottom bars.

#### Production Configuration:

Packaging: carton

The clip strips at the bottom are aluminum flat tubes.

**Note:**

It is normally 2.0m high.

Trindal pole will let the graphic reach to 2.4m high.
