Overview

Description:

PVC foam board has a very fine and homogenous cell structure, which is the reason for its extremely flat and smooth surfaces. The board core with UV blocker increases the UV resistance. It has been designed to provide the user with perfect surfaces for a variety of applications. This is why we offers different types of sheet materials.

Product Features:

- . Exhibits brightest white.
- . Constant Uniform Smooth Finish.
- . Easily fabricated, cut and handled.
- . Low water absorption.
- . High chemical resistance.
- . Light weight.
- . Printable and can be laminated.
- . Good insulation.
- . Lower heat transmission.
- . Non-toxic.
- . Flammability–self Extinguishing.

Applications:

- . Advertising: Signs, displays and exhibition boards, etc.
- . Construction: Models, partitions, wall cladding, interior decoration, air conditioning ducts, etc.
- . Industry: Control cabinets and panels, structures for corrosive environments, ducts, etc.
- . Screen Printing: Its flat and consistent surface makes it ideal for screen printing. It is suitable for use with water-based dye and solvent inks. The surface has low absorption giving excellent ink yield.
- . Digital Printing: It is specially designed for digital flatbed printers. (All 1-10mm white PVC foam board applicable.)

Details

Profile	0.04"-0.98"
Density	
Thickness	1-25mm
