Description:

This pneumatic grommet machine works together with air compressor. It's easy and convenient to operate because of the very right pressure. The mechanical structure is reasonable and durable, so the machine is with low maintenance and low cost. It works simply with high efficiency. Two eyelets feeding boxes make the eyelets into `the` guide way tidily. Automatic punching and riveting, it's finishing at the same time. The machine is widely used for punching flex banner, mesh, tent, etc.
