Overview

- Top selling unit with our tradeshow customers.
- It is easy to fit on the carrying bag.
- It has an easy assembly.
- It is made of iron.

The portable magazine rack has a black finish; it is one of the top selling products with our tradeshow customers. A double width style is available (see related items below) we strongly recommend this size model due to our customers feedback on its easy transportation and handling. It weighs 7kg and assembling and disassembling is easy.

This portable magazine rack folds up into a small lightweight package that easily fits into the carrying bag. When it is needed the magazine rack can expand to its full size and is ready to use by simply taking it out of the carrying case, expand the frame, secure the safety and add the magazines. The magazines can be displayed on either side of the rack or just one side. A heavy duty black metal hollow hole design allows eliminating the unnecessary weight and gives the display an art deco style.

Application:

Perfect for tradeshow, conventions or sales people on the go.
