### Overview

#### Applications:

This carton box sample cutter is to be used in carton factories and color printing factories. It can cut and crease 0.079" (2mm) card paper and E corrugated paper.

#### Functions:

- Cutting different materials: It is able to cut materials such as card paper, offset board and compound one.
- Folding line function: It can press an accurate folding line on card paper and offset boards.
- Half cutting and drawing dotted line: It can cut a side of paper and press dotted and folding lines according to users' needs.
- Location function: It can accurately locate and cut the printed paper box.
- Drawing function: It can draw an accurate figure on paper and film.

#### Product Highlights:

- To be used in carton and paper box packing factories. It can cut and crease 0.079" (2mm) card paper and E corrugated paper.
- Stylish carton box sample cutter, beautifully finished. It is easy to operate, making it time and labor-saving, which decreases unnecessary expenses.
- Works with high precision (error of 0.02mm (0.00079")). Timesaving device provides stability and durability.
- It adopts servo motor driving, which makes the machine work with high precision and silently.
- Merges proof, drawing and other multiply functions into `an` organic whole which makes the cutter stable, highly precise and very fast.
- CAD is paired up with CAM to come to a pinnacle of multiply designing and processing and stride across more realms.
- Equipped with a blade, pen, creasing wheel and servo motor.

**Pen:** It can realize the drawing function, draw different types of highly precise pictures.

**Creasing Wheel:** When pressing the fold line function, it can press a perfect line in the corrugated paper, cardboard, grey board and similar surfaces.

**Warranty and after-sale Service:**

- The warranty is valid for 1 year starting from `the` merchandise arrival at Destination Port.
- We will send our engineer to give you 3 days of training, maintenance or other technical support for free, although the buyer must afford traveling costs, lodging and accommodations of our engineer. An extra fee will be charged if the service time exceeds 3 days.
- If a standard part breaks due to a quality problem within the time covered by the warranty, the buyer should send the seller the broken part, and the seller will send a new part to the buyer as soon as possible and guide buyer on how to change it the way it has been taught in the training.
- User-friendly English manual for instructions on machine usage and maintenance.

**Details**

Manner of Receiving Data	PCI port
Cutting Thickness	0.079" (2mm)card paper and E corrugated paper
Driver	Servo
Max. Cutting Speed	39.4" (1000mm)/s
Max. Cutting Area	47"×35" (1200×900mm)

**Specifications**

Max. cutting area	47"×35" (1200×900mm)
Max. cutting speed	39.4" (1000mm)/s
Min. cutting diameter	0.12" (3mm)
Max. cutting thickness	0.079" (2mm)card paper and E corrugated paper
Control line and driver	Servo
Input cushion area	32MB
Positioning precision	0.0039" (0.1mm)
Cutting precision	0.0039" (0.1mm)
Repeat precision	?0.0039" (0.1mm)
Instruction format	HPGL
Data port	PCI port
Data transport speed	10MB/s
Fixed type	Vacuum absorption
Power of vacuum pump	1.5KW
Power support	220v±10%50HZ
Software	SICCUT processing software. It supports all software that can output files of DXF, PLT fo
Standard equipment	Computer, vacuum pump, controlling software, 30 pcs of blades, and other accessories.
Optional device	KASEMAKE software

Machine dimension	73"x70"x42" (1865×1770×1070mm)
Machine weight	1025.2lb (465kg)
Package	Fumigation free package
Packing size	78"x78"x28" (1970×1970×710mm), 83"x43"x36" (2100×1100×920mm)
Gross weight	1388.9lb (630kg)
