Overview

Characteristics:
- **Not includes Custom Printed Graphics**
- **Carrying Bag Included for Portability**
- **Material: high quality aluminum-alloy**

This pop up display, also known as display booths, is a great way to advertise your business at trade shows and expos. The pop up display is 10" wide and feature straight, brushed aluminum frames. This pop up display is sold with custom printed graphics that affix to the frame using a Velcro® adhesive. Your full-color, 90.6" x 90.6" (230 x 230cm) graphics are printed onto a high quality knitted polyester fabric that is durable, flame retardant and slightly stretchy. The stretch in the fabric reduces wrinkles, while a 720dpi resolution ensures amazing clarity. Four lights are included to enhance your advertising.

Application:
Great for trade shows,exibitions and other promotions.It is a great way to advertise your business at trade shows and expos.

Since trade shows typically require travel and quick set ups, these pop up displays set up within minutes and include their own carrying cases. Each case is made of heavy-duty, molded plastic and includes roller wheels, dual handles, and safety locks.

There is even a foam-padded compartment at the top of the case to store your lights and to keep them from breaking. While all of the pieces easily fit inside of the molded case, the capacity is limited. You must remove the fabric graphics from `the` frame before packing and place them atop the frame inside of the case. The pop up displays will not fit in their cases with the graphics still attached. This step of detaching the Velcro® fabric from `the` frame before packing takes just a few minutes.
