Azon Classic Level

Flat Bed Direct 3D InkJet Printer

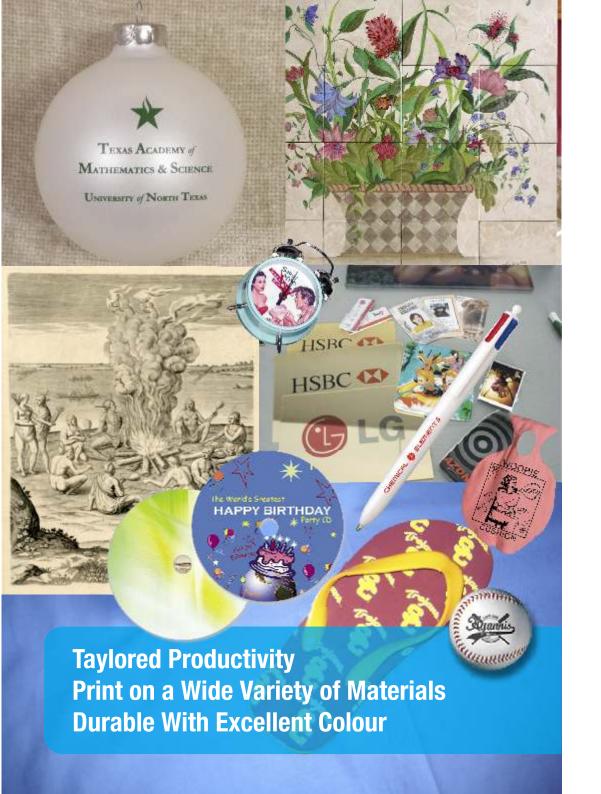

Azon Micro 2000 is 3D Digital all-purpose flat-bed printer. It prints direct on most final plastic products like: Pencils, Lighters, Mobile Phones, and Plastic ID Cards etc.

On all other products like wood, stone, steel, glass, leather, etc) and finished products (drawer, wallet, bag, tag, signboard) it is possible to print as well by easy applying Azon precoating. The razor-sharp 2880 dpi resolution is supplied by an extended 600ml ink system that uses.

Azon Micro 2000 is excellent solution for gift retailers, fast sign and copier shops, photo labs, museums, etc. Reproduction quality of true 2880 dpi satisfies even the most demanding fields like: photo and paintings reproduction and art glicee printing.

Azon Micro2000 is a must have for design studios, no matter which field of design they are in. Architects, interior designers and decorators can apply Azon Micro 2000 in everyday job tasks.

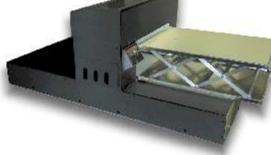

Azon offers excellent service and support. With an Azon printer you will receive factory training, applications assistance after installation, around-the-clock technical support and a host of other tools. Azon provides users with all the service, support and education needed to maintain productivity; both online, over the phone and in person - to make the most out of an investment in an Azon printer.

	Technical Checifications
Madal	Technical Specifications
