THE ROCKWELL CLUB

Norman Rockwell is one of the greatest artists that ever lived. His paintings capture the perfections of imperfection from everyday Americana. Norman Rockwell's ability to capture the finest details of everyday life has inspired us to capture the finest details of everyday fashions. And build a collection that in it's self is as inspiring as Norman Rockwell's paintings.

The Rockwell Club takes urban fashion influences and builds in 3CS Tough Technology to create the perfect collection with the purpose to perform.

THE RESISTANCE®

'The Resistance' represents the hurdles, the battles and the red tape that has tried to hold snowboarding back! The good times, the all-night parties, the epic sessions with your buddies.

The inspiration, the determination and the legends who broke down the barriers to take snowboarding from the ski hills to the streets and back to the mountains.

The Resistance knows where it came from and knows where it's going. The Resistance keeps it real because shit's real in the battlefield!

Are you a part of the Resistance?
