FMJ-1600-II plus: Semi - auto MASTER MOUNTING COLD Laminator   TOP SALE

Semi - auto cold laminating machine (Automatic take - up rolls of back paper), with functions of single sided cold laminating and mounting by electric
Good color reducibility and light transmittance, free of bubbles and snowflake point! It saves manpower and is easy to operate.
A perfect fit for entry level customer, who is looking for an affordable and professional cold laminator for their projects.
This new model can be widely used for pre - masking vinyl graphic, mount prints on substrate, over laminating inkjet prints and so on.

● FMJ-1600-II plus is based on the theory of FMJ-1600-CIIZ, because we have the profound understanding of principle of laminator, the simple new laminator which is auto stripping and collecting back paper is developed.
● It has simple structure, reasonable, humane and low cost characteristics.
● Adopt new - style aluminum alloy supporting roller, which is easy to assemble and disassemble and can be used in exchange. The collecting rollers are dynamical rollers and the supporting rollers are without dynamic. All of the rollers are equipped with damp devices and are eligible for speed adjustment.
● The laminating - supporting roller and stripping roller are equipped with forelocks associating with standard 3 inches paper rolls.
● It saves manpower and is easy to operate. As a result of the novel structure it has been a good market since its appearance.
● Since it was produced, it has been popular at the roller for supporting film, guiding roller and roller for collecting liner paper.
● It is operated conveniently and high efficiently - It realizes continuous laminating and longer picture laminating. Realize automatically stripping film and collecting liner paper through the rotary force of the upper and lower roller.

▼ Specifications

| Model	FMJ-1600-II plus
Maximum Laminating Width	1600mm (63")
Maximum Laminating Thickness	25mm (1")
Laminating Speed	0 - 5m (197") / min
Forward / Reverse	Yes
Foot Pedal	Yes
Roller's Diameter	130mm (5")
Auto rewind liner pickup	Yes
After Laminating Pickup	No
Emergency Stops	Yes
Safety Photocell	Yes
Media Core Size	3"
Power Supply	AC80V - 110V, AC110V - 240V, 50Hz or 60Hz
Machine Weight	204kg
Machine Dimension	1785mm x 400mm x 1390mm (70" x 15.7" x 55")
Price	$1,300

Economical

New type aluminium alloy supporting roller

Film and liner seperate

Control panel

Panel for covering the picture

Photocell safety switch

The baffle - board of photocell safety switch
